PHARMACEUTICAL ENGINEERING
ACCELERATED BACCALAUREATE/MASTER’S DUAL DEGREE PROGRAM
The Richard Stockton College of New Jersey and The New Jersey Institute of Technology

DESCRIPTION

- This is an intensive academic program leading to both a Bachelor of Science degree in Chemistry from The Richard Stockton College of New Jersey (RSC) and a Master of Science degree in Pharmaceutical Engineering from The New Jersey Institute of Technology (NJIT) in five years.
- High school seniors who are accepted into this program will take the first three years of their course work in the Chemistry Program at RSC.
- The Stockton portion of the program consists of a selected group of liberal arts and program courses in addition to a set of undergraduate courses required by the graduate engineering program.
- Upon the successful completion of Stockton portion, the student is automatically transferred to NJIT and is expected to start classes there in the summer of the third year.
- The NJIT portion consists of a set of Chemical Engineering courses in addition to the full curriculum of the Master’s program in Pharmaceutical Engineering. Some of these courses will be counted toward the RSC Bachelor’s degree.
- Upon successfully completing the fourth year of the program, student will be awarded the Bachelor of Science degree from RSC while the Master of Science degree in Pharmaceutical Engineering will be awarded by NJIT at the end of the program.
- If for any reason the pharmaceutical engineering portion of this program is not completed, the student will be able to return to RSC to complete his/her BS degree requirements.

ADMISSION

- Application for admission must be submitted to Stockton by no later than February 15.
- Pharmaceutical Engineering Application must be submitted to Stockton by no later than February 15.
- To be considered for admission to this program the applicant must be a high school senior in the top 20% of his/her class, and must be accepted into the RSC Chemistry program.
- The applicant’s SAT scores should be at least 1200 in Critical Reading and Mathematics combined with at least 600 in Mathematics.
- Applicants will be reviewed by NJIT’s Pharmaceutical Engineering Department advisor for a final acceptance decision.
- Students will be notified of their acceptance to the Accelerated Baccalaureate/Masters degree program in Pharmaceutical Engineering by April 15th of the semester prior to admission to RSC.
PROGRAM REQUIREMENTS

- A cumulative GPA of 3.25 or higher at RSC
- A minimum grade of “C” in no more than three (3) undergraduate program courses, including any undergraduate courses taken at NJIT toward the RSC Bachelor’s degree
- Endorsement by the Stockton’s Chemistry admission committee
- Completion of the NJIT Master’s degree application, including payment of the NJIT Master’s application fee, upon the completion of the fall semester of the undergraduate junior year (70 credit or higher) at Stockton
- Completion of the GRE general exam and achievement of scores in accordance with existing NJIT policy before the end of the fourth year of the program
- Full matriculation into the Master’s in Pharmaceutical Engineering program at NJIT upon receiving the Bachelor’s degree in Chemistry at the end of the fourth year of the program

TUITION and FEES

- While enrolled at RSC, students will pay the College’s appropriate tuition and fees.
- While enrolled at NJIT, students will pay the appropriate NJIT tuition and fees.
APPLICATION

PHARMACEUTICAL ENGINEERING
ACCELERATED BACCALAUREATE/MASTER’S DUAL DEGREE PROGRAM
The Richard Stockton College of New Jersey and The New Jersey Institute of Technology

The Pharmaceutical Engineering Application (this form) must be submitted on or before February 15

Please complete and mail the following application material to:

Accelerated BS/MS Dual Degree Program – Pharmaceutical Engineering
Office of Admissions
The Richard Stockton College of New Jersey
101 Vera King Farris Drive
Galloway, NJ 08205.

1. Name: ________________________________________________________________ Date: ________________

2. Address: ____________________________________________________________________________________

   City: ______________________________________________ State: _____________ Zip Code ______________

3. Phone: __________________________________ E-mail: ____________________________________________

4. All high schools attended (list most recent first):
   High School    Address    Dates Attended GPA & Class Rank
   a) ____________________________________________
   b) ____________________________________________
   c) ____________________________________________

5. SAT Scores:  Critical Reading ____________ MATH _____________ DATE _____________
   Critical Reading ____________ MATH _____________ DATE _____________
   Critical Reading ____________ MATH _____________ DATE _____________

6. What Honors, Awards, etc. have you received? (Attach additional page, if necessary.)

   ________________________________________________________________

7. In what significant extra-curricular, community, etc., activities have you participated?
   (Attach additional page, if necessary.)

   ________________________________________________________________

8. To assist the admission committee in developing a greater understanding of your interest in this program, please
   attach a one to two page personal statement (approximately 500 words) which addresses reasons for your
   selection of this program as a career path and how it meets your life goals.
CONTRACT

PHARMACEUTICAL ENGINEERING
ACCELERATED BACCALAUREATE/MASTER’S DUAL DEGREE PROGRAM
The Richard Stockton College of New Jersey and The New Jersey Institute of Technology

We have read, and fully understand the requirements for admission to the Accelerated Baccalaureate/Master degree program in Pharmaceutical Engineering and those that must maintained in order to remain in the program. These include, but are not limited to the following:

- To be considered for admission to this program the applicant must be a high school senior in the top 20% of his/her class, and must be accepted into the RSC Chemistry program.
- The applicant’s SAT scores should be at least 1200 each in Critical Reading and Mathematics combined with at least 600 in Mathematics.
- Applicants will be reviewed by NJIT’s Pharmaceutical Engineering Department advisor for a final acceptance decision.
- Students will be notified of their acceptance to the Accelerated Baccalaureate/Master degree program in Pharmaceutical Engineering by April 15th of the semester prior to admission to RSC.
- Student must maintain a cumulative GPA of 3.25 or higher at RSC.
- A student in the program can have a minimum grade of “C” in no more than three (3) undergraduate program courses, including any undergraduate courses taken at NJIT toward the RSC Bachelor’s degree.
- The automatic transfer of the student to NJIT is contingent upon the endorsement of the Stockton’s Chemistry admission committee as well as completion of the NJIT Master’s degree application, including payment of the NJIT Master’s application fee, upon the completion of the fall semester of the undergraduate junior year (70 credit or higher) at Stockton.
- Students in the program are required to complete the GRE general exam and achieve scores in accordance with existing NJIT policy before the end of the fourth year of the program.
- Students in the program should apply for Stockton graduation in the spring semester of the fourth year of the program. Full matriculation into the Master’s in Pharmaceutical Engineering program at NJIT is contingent upon receiving the Bachelor’s degree in Chemistry.
