13th Annual Day of Scholarship

Visit the Grants Office’s Day of Scholarship page for details, the application, and student handouts! Include March 21 into your syllabus as a day of learning and a day for Faculty members to support peers and their research initiatives!

This year’s event promises to be a fantastic gathering of Scholarly ideas! Plan to attend March 21. Application deadline is January 25, 2013.

Call for Research and Professional Development Funding

President Saatkamp and Provost Kesselman have generously made available more funds for research and creative work to be awarded for Fiscal Year 2014. The pot makes available $195,000 for R&PD awards for FY14. An additional $100,000 will again be available to support course releases for FY14!

Proposals may request course release and/or funds depending on what the project needs to be successful. Faculty are encouraged to request course releases for Spring 2014; however individual awardees should work directly with Program Coordinators, Directors, Deans and/or Assistant Deans to request a schedule that best meets the needs of the project.

We invite proposals which have the potential to lead to significant outside funding, creative work in the arts, pedagogical studies, and publication in any field of learning. Projects aligned with the 2020 themes are welcomed.

Proposals are due by 5:00pm on February 15, 2013. Please submit an electronic/scanned copy of the entire application package to the Grants Office at grants@stockton.edu as well as the original signature pages ONLY to E-226.

Agency Fellowships Available through National Research Council

The National Research Council’s Research Associateship Programs are accepting applications through February 1, 2013. Graduate students, postdoctoral researchers, and senior-level researchers are eligible to apply for fellowships in 27 participating agency programs.

The purpose is to promote excellence in scientific and technological research conducted by the U.S. government. After selecting the project or projects of interest, prospective applicants should contact the identified research adviser to establish mutual interest and assure that funding will be available if the application is recommended by National Research Council review panel. Eligibility criteria vary by federal program, so it is critical that prospective applicants review the program-specific page carefully. Applications are reviewed quarterly.

Learning Abroad Faculty Fellowships

As a result of funding support from the 2020 initiatives, we are pleased to Call for Proposals for a New Program to expand Stockton’s learning abroad program.

- Four fellowships are available in each of the two categories, Study Tours and Online Collaboration.
- Activities should be planned to occur within FY 2014 (7/1/13-6/30/14)
- An electronic copy of the application (due 5pm January 29th, 2013) is to be sent to the Grants Office at grants@stockton.edu - A hard copy of both signatures pages should be mailed to Grants in E-226.
