Scholarly Activity
September 2008 Through August 2009

Stockton College
The Richard Stockton College of New Jersey
**Foreword**

To be engaged in higher education involves us intimately with continuous learning that pushes us to dig deeper and stretch further in our own intellectual growth. Such activity leads to improved courses, energized students, and often in results that are recognized by others.

This booklet honors that commitment to scholarly pursuits and applauds the breadth of achievements outlined here. As simply a list, the Booklet is incomplete and cannot describe the richness and curiosity of ideas beneath the details, nor the long hours of devoted time necessary to bring a project to some closure. The details suggest a much bigger volume and can only hint at the enormous amount of activity that goes on outside the classroom.

And readers should know that this report contains only those scholarly accomplishments external to the College and only those reported to us. Taken together with all that happens within the College, the booklet testifies to an active scholarly community at Stockton.

Our purpose here is to honor those who value creative and productive scholarship and to celebrate their achievements. The honor roll extends across the College to include faculty and staff, and the students who have been included in projects, gaining noteworthy involvement in scholarship beyond the classroom. Please join one another in applauding the accomplishments of everyone who works hard to contribute to the academic life that is Stockton.

Thank you for all you do,

[Signature]

David L. Carr
Provost and Executive Vice President
