Post Master’s Certificate Program in Clinical Supervision

The Stockton College Certificate in Clinical Supervision is a 20 hour / 20 CE approved certificate program designed to enhance and solidify professional skills as a clinical supervisor. The program, rooted in contemporary research-based theory, provides a theoretical and practical understanding of the clinical supervision process. Class sessions will explore the challenges and complexities of supervision specific to the clinical setting, using curriculum and classroom exercises, case presentations and analysis, and discussion of relevant readings in a traditional seminar setting. The certificate satisfies the State of New Jersey Board of Social Work Examiners 20 hour coursework requirement for the Social Work Clinical Supervisor and also satisfies the 5 hour Ethics requirement for State of New Jersey Social Workers.

The Certificate in Clinical Supervision is taught in an executive style hybrid format, making use of both the online, virtual classroom and the face-to-face classroom. This allows the busy clinician to participate in the program during 3 5-hour classroom sessions and 2.5-3.0 hours of interactive online classroom between classroom sessions.

PRIMARY FACULTY: Ed Igle, LCSW, LMFT, is a licensed clinical social worker and licensed marital and family therapist in private practice. He is also an AAMFT Approved Supervisor, and is recognized as a clinical supervisor by the NJ Board of Social Work Examiners. Ed has over 25 years of experience delivering direct psychotherapeutic services to couples and families and over 20 years of experience in training and supervising social workers and marriage and family therapists. He has been a Clinical Skills Trainer at the Philadelphia Child and Family Therapy Training Center since 2002, and has taught supervision courses in the Department of Child and Adolescent Psychiatry, Children’s Hospital Family Therapy Training Center, and at the Graduate School of Social Work, Rutgers University.

</table>

ADMISSION CRITERIA: Applicants must submit a completed application form and a current resume. Participants must hold a Master’s degree in a clinical discipline from an accredited institution, have at least one year of supervisory experience and be currently providing clinical supervision. Please note that there is a distinction between administrative supervision and clinical supervision; this certificate is for Clinical Supervisors.

Submission of completed application is not a guarantee of acceptance into certificate program. Your acceptance will be confirmed in writing immediately upon successful review of materials.

The Richard Stockton College of New Jersey is an equal opportunity college. It does not discriminate in admission or access to its programs and activities or in treatment or employment of individuals on the basis of race, gender, national origin or ancestry, age, religion, disability, affectual or sexual orientation, marital status, familial status, atypical hereditary cellular or blood trait, genetic information, and/or liability for service in the Armed Forces of the United States.
Application Form

Application materials due by Oct. 8 for fall certificate courses. Applications received after the deadline will be considered at the discretion of the instructor and program.
