AC Visitor Profile Study

PRELIMINARY REPORT
FEBRUARY 2013

LLOYD D. LEVENSON INSTITUTE OF GAMING, HOSPITALITY & TOURISM
THE RICHARD STOCKTON COLLEGE OF NEW JERSEY

Israel Posner, PhD, Executive Director
696 adults within approximately 200 miles of Atlantic City, New Jersey were interviewed by the Stockton Polling Institute for the Lloyd D. Levenson Institute of Gaming Hospitality and Tourism (LIGHT). Only adults who indicated they traveled to Atlantic City about an hour (50 miles) were included in this study (respondents). Both the polling institute and LIGHT are components of the Richard Stockton College of New Jersey. The poll has a margin of error of plus or minus 3.7 percentage points. Interviews are conducted at the Stockton Polling Institute by live interviewers calling from the Stockton College campus in Galloway, New Jersey. The poll was conducted between February 1 and 15, 2013. Interviewers called both land lines and cell phones. All prospective respondent households in the source telephone list have the same chance of joining the sample because of the random digital dialing system (RDD). Data is weighted according to United States Census Bureau demographics for New Jersey voter age population.

About the Lloyd D. Levenson Institute of Gaming, Hospitality and Tourism: (www.stockton.edu/levesnon) in The Richard Stockton College of New Jersey’s School of Business (LIGHT) provides a forum for the exploration of major trends facing the tourism, hospitality and casino gaming industries. LIGHT collects, analyzes and disseminates reliable information and helps generate scientific knowledge in support of these vital New Jersey industries.
