**Galloway, NJ** – Prospective students and other members of the public are invited to the first Graduate Research Symposium at The Richard Stockton College of New Jersey, featuring an information session on the School of Graduate and Continuing Studies, a showcase of graduate research and a panel discussion on the health professions.

The **Monday, Dec. 9, 2013** event kicks off **at 5:30 p.m.** with an information session in the Campus Center Theater about the various programs available at the School of Graduate and Continuing Studies.

**From 6-7 p.m.**, a panel discussion on careers in the health professions will be held in the Campus Center Theater. The panel of Stockton alumni and professionals in the field will cover graduate career paths, internships/volunteer opportunities, and the importance of interprofessional work in health care. Prospective and current students are encouraged to attend.

Research from the capstone projects of 90 graduate students from a wide range of disciplines will be displayed from **6-8 p.m.** in the Campus Center Event Room and Campus Center Meeting Rooms. A capstone project, similar in some ways to a college thesis, may take a wide variety of forms but involves research supervised by a faculty member. To accommodate various types of research and presentational formats, the symposium will include oral and multimedia presentations as well as posters.

**-more-**

***-continued from page 1-***

Capstone projects will be presented by students in the following programs:

- Doctor of Physical Therapy;
- Master of Arts in American Studies;
- Master of Arts in Criminal Justice;
- Master of Arts in Instructional Technology;
- Master of Arts in Educational Leadership;
- Master of Arts in Holocaust and Genocide Studies;
- Master of Science in Nursing;
- Master of Science in Communication Disorders;
- Master of Science in Computational Science.
