DEPARTMENT OF FACILITIES PLANNING AND PLANT OPERATIONS

Summer Classroom Construction

Summer 2012 classrooms are under development for the delivery of fall use.

- Upper J wing 3 classrooms
- Lower J wing 1 computer lab
- Lower H wing 2 classrooms
- West Quad building 1 classroom
- Manahawkin facility 2 classrooms
- Woodbine facility 2 classrooms
- Hammonton facility 5 classrooms, 5 seminar rooms, 1 computer lab

Backfill/Decanted Renovations

J-Wing

This project consists of the renovation of Upper & Lower J-Wing in order to accommodate the delivery of administrative & academic space for the School of Education and the School of General Studies. It will also include the expansion of the Human Resources Department. This project is under construction

Unified Science Center

To support the College's Sciences and Mathematics Programs, a three-story, 66,350 gross square foot building will be constructed. This building will include wet and dry laboratories, classrooms and support facilities. Structural steel is complete and the concrete floors have been poured. Our expectation is that the 1st Quarter of 2012 will consist primarily of construction of the building frame with project completion during the 2nd Quarter of 2013.

Solar Grant – American Reinvestment and Recovery Act

This project consists of the design and construction of solar energy panels mounted on canopies above the parking lots on the north side of campus. It also includes certain energy savings improvements to our residential housing units. A contract was awarded to a developer who will design, construct and own the project in order to sell electricity to Stockton at a below-market rate. Solar carports in the North Lot are now complete, energized and providing electricity to the housing complex.

Electrical Feeder Upgrade

This project consisted of the design and installation of additional electrical capacity that will enable the operation of the new Unified Science Center. This project is now complete and ready to be connected to the Unified Science Center building site at the appropriate time.

Hammonton Adaptive Reuse (SASI Project)

This project consists of the renovation of a three-story, 15,000 square foot former factory in downtown Hammonton, New Jersey. It will provide academic, retail and art gallery spaces for use by Stockton and the local community. The project is experiencing a delay in construction due to the original contractor entering into a contract default with the Town of Hammonton. The goal is to engage a new contractor such that the forecasted completion of fall 2012 is not compromised. A new contractor has been engaged with the Town of Hammonton. The forecasted completion is still scheduled for fall 2012.

Manahawkin Academic Space

Stockton is collaborating with Atlanticare for the joint development of healthcare and academic space in the shore town of Manahawkin, with Stockton considering 6,000 to 10,000 square feet of academic space for our programming needs. This project is currently in the pre-construction phase. It is anticipated the contractor will begin mobilization towards the end of May 2012 working towards an August 2012 completion date, thus allowing for a September opening of the facility.

Azeez Museum

The College is now in possession of the Azeez Facility and is presently collaborating with the donor towards an academic addition for this space. Design efforts are underway to develop a two-classroom facility for occupancy January 2013. The project is currently in the pre-construction phase.

Pomona Community of Learning

The College has initiated a Request for Qualifications for a developer-led team to construct facilities that will provide up to 800 beds for on-campus residential housing. The location of the facility will be

adjacent to the outdoor athletic fields along Pomona Road. Stockton's intent is to have this housing development available for occupancy in approximately two years.

Independence Walk Reconstruction Phase II

This project consists of the renovation of the balance of Independence Walk that was not completed in Phase I and includes the remaining courtyards. Construction bid documents have been assembled approved for permitting by the DCA and awaiting budget approval prior to bid.

Parking Lot & Outdoor Tennis Stadium Development

A feasibility study is underway to assess the possibility of advancing the further development of the Pomona Road Athletic Complex to include 8 tennis courts, observation stands and parking. With this effort, we are also considering the enhancement of core campus parking accommodations by renovation of existing tennis courts to become gated and secure parking lots.

Achievements

Plant Management personnel collected 2,187 pounds of food, donated by departing Campus residents, for the Community Food Bank of New Jersey in Hillside.

Campus Maintenance & In-House Projects

- **D109 Renovation**
An expansion to the Division of Student Affairs' D109 office suite was completed, along with the addition of a small conference area.
- **Electronic Classroom Conversions**
C103 and E042 have been converted to electronic classrooms in anticipation of the upcoming fall semester.
- **J & H-Wing Relocation**
Plant Management completed the temporary office and staff relocation of the following departments in order to accommodate renovations to J and H-Wings: the Office of Human Resources, General Studies, the School of Education and the Academic Tutoring Centers.
- **Water Plant Fire Alarm Upgrade**
The Water Plant fire alarm has been upgraded in order to improve reliability and safety.

Housing Maintenance & In-House Projects

- **B and C-Court Furniture Replacement**
Fifty-six (56) apartments in Housing I, B and C-Courts received new furniture in order to accommodate a fifth roommate to provide for additional student volume.
- **Housing IV HVAC Replacement**
The HVACs units located in Housing IV have reached the end of their useful life and have been replaced with new, high efficiency systems.

Green Initiatives

- **Housing I Exterior Lighting Upgrade**
All exterior lighting in the Housing I complex was replaced with energy efficient LED lights, with the exclusion of the previously completed C-Court. Two hundred-fifty (250) watt courtyard lamps were replaced with twenty-six (26) watt LEDs and eighteen (18) watt porch lighting was replaced with five (5) watt LEDs. This transition to LEDs will result in a decrease of each court's usage by over 1,000 watts.

- Campus Center Theater Lighting Replacement
Thirty (30) fixtures in the Campus Center Theater, currently utilizing eighteen (18) watt incandescent bulbs, were replaced with five (5) watt LEDs resulting in a decrease in usage of over 2,000 watts.
