DEPARTMENT OF FACILITIES PLANNING & CONSTRUCTION

Pomona Parking Lot

Construction of the new 500-space parking lot in the Barlow Field area of Pomona Road continues with a scheduled completion in June.

Police Building Renovations

Construction of a small addition in the rear of the Police Building as well as interior renovations associated with new restrooms and locker rooms continue. It is anticipated that the project will be complete in June.

F-Wing Restroom Renovations

Renovations to bring an existing restroom facility and a lactation room into full ADA compliance have begun. This project is scheduled to be complete in June and will be the prototype of future restroom renovations across campus.

Unified Science Center 2 & New Academic Classroom Building

Revised construction documents are complete and scheduled for bid on May 3. The University now anticipates breaking ground in May with completion of the project scheduled for late fall 2017.

A&S Building Renovations

Exploratory Design has begun to evaluate the extent of exterior renovations necessary to stop the deterioration of the façade as well as providing greater energy and maintenance efficiency associated with the HVAC infrastructure. It is anticipated that the project will begin construction in late summer.

Housing 2 Heat Pump and Roof Top Unit Replacement

Design of the Housing 2 HVAC Renovation is complete allowing bids to be opened on March 30. This project is part of CIF Funding from the State of New Jersey. It is anticipated that construction will begin in May and be complete in late summer.

Campus Signage & Wayfinding

Design of the new signage and wayfinding devices across all of Stockton's Campuses is in process. It is anticipated that construction will begin in June and all new monument signage will be in place by late summer.

DEPARTMENT OF FACILITIES MANAGEMENT & PLANT OPERATIONS

Housing III Boiler Replacement

Commencing last summer 2015, Plant staff began an initiative to replace the boilers supporting the Housing III complex. The equipment replaced was original to the buildings and had become antiquated. Presently, L – Dorm, M – Dorm, O – Dorm and P – Dorm have been upgraded. N-Dorm is scheduled to be replaced upon the conclusion of the spring term.

Parkway Building Bottle Filling Station

A bottle-filling station has been installed at the Parkways Building for use by faculty, staff, students, and visitors. This station promotes the use of refillable water bottles, which will subsequently reduce the amount of recycled waste the College produces and reduce its carbon footprint.

Subject: R&PD Recommendations for Adjunct Faculty Funding for Spring 2016

Dear Provost Davenport,

A subcommittee of the Research and Professional Development Committee, consisting of three committee members, the Chair, and Lydia Fecteau, as an adjunct representative (we selected her due to her elected position as an adjunct leader with the SFT), met yesterday to review seven proposals for the adjunct faculty opportunity funds.

We would like to recommend all seven for funding, given the overall quality of the projects, the short amount of time provided to applicants, the limited amount of guidance we could provide to them, and the fact that we piggybacked this onto an application form, directions, and guidelines intended for a different population of faculty for different purposes. In other words, we think the applicants did as well as they reasonably could, that their projects all benefit our students and/or Stockton's research agenda and/or the applicant's professional development, and that funding all the projects in this inaugural round makes sense given the small amount of additional money required to do so (\$800).

As we now know about the funding, we plan to be able to advertise in a more timely fashion for next fall, with clearer guidelines about what projects we'd want to fund, to create a new form with shorter and clearer directions, and provide assistance to applicants in a much more timely and organized manner for next fall, and we anticipate then that we'd be more able to justify the hard decisions that will need to be made about whom to fund.

The projects we recommend for funding for this spring are as follows, for a total of \$3,300:

Melissa Auerbach	\$500	travel related to a poster presentation at a conference
Mark Demitroff	\$500	costs related to participating with other Stockton faculty and experts from other areas in a geologic field trip
Jack Devine	\$300	translation of a section of a classic text pivotal to his teaching and research in a field
Anna Evans	\$500	costs related to participation at a national conference
Elizabeth Hall	\$500	costs related to a gallery exhibit of student work from a course she is teaching
Bud Noble	\$500	costs related to a group of students reading of <i>Ahab</i> at a venue in New York City
Jacques Press	\$500	costs related to preparing to teach a new General Studies course in Critical Thinking

Thank you for creating this new line of funding and for considering our request to fund all of these projects.

Sincerely,
Heather McGovern

RE: Fiscal Year 2017 R&PD Internal Grants Recommendations

Because the Research and Development Committee did not know about seven applications when we met in March, we met again on April 14 to discuss an additional 7 applications for the main round. We wish to recommend five of those seven for funding.

In total, then, the main Call for Proposals for FY16 Research and Professional Development resulted in complete applications from 56 faculty members who requested a total \$315,723.01 from the \$210,000 available for funding. Forty-five percent of the applicants are tenured (compared to 51% last year). Recommended projects break down by School as follows:

- ARHU, 6 of 11 applicants (compared to 9 of 10 last year);
- BUSN, 6 of 7 applicants (compared to 3 of 5 last year);
- EDUC, 1 of 3 applicants (compared to 2 of 2 last year);
- GENS, 5 of 6 applicants (compared to 3 of 3 last year);
- HSCI, 2 of 5 applicants (compared to 3 of 4 last year);
- NAMS, 8 of 10 applicants (compared to 11 of 12 last year); and
- SOBL, 12 of 14 applicants (7 of 7 last year)

The committee recommends funding the following proposals, for \$219, 173.01 (**a total of \$25,197 additional to fund five of the additional seven applications**). When we first met, we'd left \$16,023.99 unspent in the main round budget. The money for the additional funding over the \$210,000 for the main round budget can come from unused funds from other rounds of internal funding this year, leaving \$5,023 unspent in total from available internal funding (or \$4,223 unspent if the additional \$800.00 provided for the adjunct faculty funding is deducted).

Bottom line, without numbers: we're using the money we had left after the first meeting for the main round. Then, as we have in recent years, we're asking to transfer unspent funds from other rounds to fully cover the five additional proposals we're recommending for funding from our second meeting. However, altogether, we'll have left a small sum of money unspent for this fiscal year.

The Stockton Board of Trustees Fellowships for Distinguished Students program has awarded \$6,000 worth of fellowships to Stockton University students for projects of a research and/or creative nature. This program is in its thirtieth year and is an important part of the university's year-round emphasis on academic excellence and the fostering of effective partnerships between students, faculty and the community.

Members of the selection committee included:

Faculty: Michael Scales, Benjamin Agyare
Staff: Carole LoBue, Tomas Itaas, Gerald Martin
Student: Stephanie Hanvey

Recipients for the Summer Break/Fall 2016 Semester funding period are:

Daniel Brown, a junior, majoring in Mathematics, a \$500 fellowship for a project titled, "General topic in the area of space vehicle operations and simulation."

Rebecca Claxton, a junior, majoring in Mathematics, a \$500 fellowship for a project titled, "Symmetries of the Vicsek Fractal."

Trevor Forsman, a senior, majoring in Chemistry, a \$1,000 fellowship for a project titled, "Determining the Partition Coefficient of TNT in Acetonitrile/Hexane Extraction System."

Emily Hanna, a sophomore, majoring in Mathematics, a \$500 fellowship, for a project titled, "The Effects of Space Vehicle Operations on Domestic and International Air Traffic."

Alexandra Hay, a senior, majoring in Health Science, a \$1,000 fellowship, for a project titled, "Biofeedback, Paired with VitalStim Therapy, Anticipated to Increase Swallowing Ability in Elderly Dysphagia Patients."

Alejandra Londono, a junior, majoring in Sociology & Anthropology and Spanish Language and Culture Studies, a \$500 fellowship for a project titled, "The Power of the Hispanic Vote."

STOCKTON UNIVERSITY

MEMORANDUM

TO: Harvey Kesselman, President

FROM: Charles Ingram, Vice President for Administration and Finance

DATE: May 4, 2016

SUBJECT: Recommendation to Revise and Adopt University Policy

I am pleased to submit the following new policy for Board consideration and review as recommended by policy administrators:

NEW POLICY: VI-70, University Policy and Procedure Authority

UPDATED POLICY: VI-56, Investment Policy

I recommend the Board of Trustees conduct a First Reading at the May 4, 2016 meeting, followed by approval of the recommendation for a Second Reading and vote at the July 6, 2016 meeting.

POLICY

University Policy and Procedure Authority

Policy Administrator: Vice President for Administration and Finance

Authority:

Effective Date: Upon Approval by the Board of Trustees

Index Cross-References: Procedure 1060 – Policy and Procedure Development and Approval

Policy File Number: VI-70

Approved By: Board of Trustees

SCOPE:

This policy addresses the process for developing, approving and maintaining all Stockton University policies and procedures and applies to all University departments, faculty, staff and students.

POLICY STATEMENT:

The purpose of this policy is to help ensure the Stockton Community has ready access to well-developed and understandable University policies and procedures with the proper level of approval.

AUTHORITY:

Policy is only established through formal guidelines adopted by a resolution to the Board of Trustees from the President of the University.

Procedure is only established through formal guidelines adopted by recommendation to the University President from University Cabinet Members.

Policy and procedure are developed at the University through a process of collaboration among stakeholders.

ADMINISTRATION OF POLICIES AND PROCEDURES:

To ensure access to University policies and procedures, the University will maintain an official Stockton University Policy and Procedure Webpage with the most current approved version of all policies and procedures. The webpage will be maintained by Administration and Finance using a standard electronic format and consistent structure for policies and procedures. The policies and procedures on the Stockton University Policy and Procedure Webpage will constitute the official electronic depository for all university-wide policies and procedures.

In order to maintain an organized system of change control and to ensure consistency throughout the University, individual department websites should not contain separate copies or versions of University policies and procedures. Department websites that reference the University's policies and procedures must use hyperlinks to the documents on the official Stockton University Policy and Procedure Webpage. This does not preclude departments from maintaining internal departmental guidelines on their websites; however, these departmental guidelines should not be identified as official University policy and procedure. In no event will departmental guidelines conflict with official University policy and procedure.

Investment Policy

Policy Administrator: President or Designee

Authority: N.J.S.A. 18A: 3b-6.g

Effective Date: July 7, 2005, February 21, 2007, September 10, 2008, February 16, 2011, July 6, 2011, May 8, 2013; Upon Approval by Board of Trustees

Index Cross-References: 6410 – Investment Procedure

Policy File Number: VI-56

Approved By: Board of Trustees

Purpose

To establish general principles for investment of Stockton University (the "University") funds not required for operations. This is an area of particular responsibility for the Board of Trustees (the "Board") and the Investment Committee, as the Investment Committee (the "Committee") is called upon to ensure the prudent investment of the University's assets in accordance with the long-term objectives of the school. The University's Statement of Investment Policies and Objectives ("the Policy") has been established to provide a general framework for the management and investment of the University's assets.

Investment Philosophy and Objectives

Investment Philosophy

The investment philosophy for the fund has been determined with careful consideration given to the University's primary purpose, its investment goals and objectives, common practices in prudent investment program management, spending policies, and liquidity needs. The investment philosophy embraces the following:

- Strategic asset allocation is an important factor influencing long-term investment returns, but the school recognizes the importance of dynamically adjusting asset allocation in light of evolving market opportunities to preserve assets and potentially increase returns.
- The University's purpose is to exist in perpetuity and, therefore, a long-term time horizon is appropriate; over the near- to medium-term, however, assets and liabilities will be matched appropriately given the uncertainty in fundraising and enrollment activities, the initiation of bond principal repayments, and the need to generate reliable cash flows in support of school objectives.
- While the University's time horizon is long, from time to time markets present opportunities of which the school will seek to take advantage.
- Market-related risks are unavoidable as the fund pursues its investment strategies. The school will, however, broadly diversify its assets across and within asset classes and pursue asset allocation strategies to manage risks appropriately.
- Active and passive investment strategies will be combined so as to maximize alpha potential relative to additional risks incurred in seeking to outperform markets.

The Board has established an investment philosophy that stresses managing the risks associated with their pursuit of the highest maximum long-term return, along with the need for short term liquidity.

Investment Objectives

As part of this philosophy, the Committee has established the following Objectives for the fund:

- The overall objective for the University's is to achieve a real (after inflation) annual return of 2.5% over long periods (approximately 15 years). A secondary objective is to increase the corpus of the Investment Fund over time in order to generate additional income for University operations.
- Each of the University's portfolios will be constructed by taking on the level of downside risk associated with the stated level of return.

Contingency Reserve

The University Fund shall maintain a Contingency Reserve of cash and cash equivalents (defined as either FDIC insured or Government Fixed Income money markets with overnight liquidity and non-floating net asset values) that can be utilized, under the direction of the President & Board, to meet capital expenditure needs of the University. There is no obligation of the University to utilize these reserves, as the University does not need to meet any distribution requirements to meet tax regulations or to maintain its tax exempt status. Advisors are expected to maintain 5% of their overall portfolio balance in cash and cash equivalents to create this Contingency Reserve.

In the event that Contingency Reserve or a portion thereof are withdrawn from an Advisor's portfolio, subsequently creating an asset allocation which does not meet the 5% guideline, Advisors will use best efforts to return their portfolios to compliance within 180 days. This time frame will also apply to any other asset class allocations which may have changed as a result of the withdrawal. The intent of the Contingency Reserve is to mitigate the potential negative implications of a cash withdrawal amidst volatile markets. In addition, the use of short term credit facilities to provide needed liquidity and mitigate the effect of undesirable liquidations is allowed, subject to the approval of the Board of Trustees.

POLICY:

- A. Official University publications are prepared to provide members of the University community with current institutional policies, goals and operating procedures, and to indicate standards by which individuals and the institution can be judged.

While every effort is made to ensure the accuracy of the information contained in the publications, the University reserves the right to make changes and revisions without prior notice.

Official publications include:

1. The Stockton University Web Site
2. The *goStockton* portal
3. The Stockton University Undergraduate and Graduate Bulletins
4. The Student Handbook
5. The Faculty Handbook
6. The Guide To Residential Life
7. Brand Guide
8. Editorial Style Guide
9. The Employee Handbook
10. The Policies and Procedures Web Site

- B. The Stockton University Web Site is a primary publication of the University. It is designed to be a useful and reliable source of information to the University community and beyond.
- C. The goStockton portal is an internal publication intended to provide a clear and helpful reference to a number of services, operations, and procedures to members of the University community.

- D. The Stockton University Undergraduate and Graduate Bulletins are bi-annual publications, produced every two years primarily for student use, outlining facets of the University, which include Admissions, University costs, Financial Aid, campus life, academic programs and information, policies and procedures concerning instruction, University organization and governance, campus community conduct, University organizations, activities, and services.
- E. The Student Handbook is a bi-annual publication which gives guidance to students on academic life, community life, community policy & student grievances, and co-curricular life & student development.
- F. The Guide to Residential Life is an annual publication that includes details of residential students' rights and responsibilities, the policies that affect them, information about meal plans, parking and more.
- G. The Brand Guide serves as a tool to encourage consistency in the use of the Stockton's brand and for effective communication about the University. The guide provides standards for the University's marketing communications, image and identity and includes approved usage of the University's seal, logos, wordmarks, colors, typefaces and templates.
- H. The Editorial Style Guide is a set of standards to be applied when writing and designing documents. The guidelines are helpful in avoiding common grammatical and spelling errors and should be used to avoid inconsistencies in style and tone in printed and digital publications and copy.
- I. The Employee Handbook is a publication produced as a useful guide regarding University/state policies and procedures for employees.
- J. The Policies and Procedures Web Site includes links to all policies and procedures approved by the Board of Trustees, the President or his/her designee. These documents serve as guiding principles which govern the operation of the University. Policies and procedures indicate how the University organizes itself and its work. Every facet of University operations is included.

Printing of Union Materials

Policy Administrator: Director of Marketing Communications

Authority: N.J.S.A. 18A: 64-6 and 18A: 64-8 – Agreements; State of New Jersey with Unions and Associations

Effective Date: July 23, 1980; February 16, 2011; Upon Approval by Board of Trustees

Index Cross-References: Procedure 1102: Duplicating Material; Procedure 1104: Printing Request Approvals

Policy File Number: I-111

Approved By: Board of Trustees

POLICY:

- A. **Background.** The State of New Jersey recognizes certain unions and associations as representatives for groups of University employees. This recognition is for purposes of collective negotiations concerning the terms and conditions of employment. Further the state, acting for the University, has agreed to permit usage of support facilities for union or association officials, with reimbursement at cost for these privileges. The printing or duplicating of certain union materials would be included as one of these privileges.
- B. **Establish Policy.** The provisions of Procedure 1102: Duplicating Material, and Procedure 1104: Printing Request Approvals, apply to all requests from within the University for printing or duplicating services.
- C. **Screening Process.** A screening process is used in the print shop to prevent the misuse of valuable University resources. The process requires shop personnel to obtain approval from the Director of Marketing Communications prior to processing any materials which might be:
 1. Intended for off-campus distribution.
 2. Judged as unrelated to University business.
- D. **Political Orientation.** Political materials relating to off-campus organizations or personnel are not to be printed. The suggestion should be made to those requesting this service that this type material be printed or duplicated by outside establishments.
- E. **Criteria for Printing.** Materials which should be processed and paid for by the union or association must relate to the broad area of "terms and conditions of employment." This is the phraseology used to describe the area of representation provided by the unions and it follows that services should be based on the same criterion.

III. OTHER INFORMATION

As Dean of the largest College at West Chester University, Dr. Vermeulen led a tenure-track faculty of 280, thirteen departments, a half dozen interdisciplinary programs, and an annual budget of \$30 million, which stretched from the natural and social sciences to the humanities and liberal arts. Throughout her professional and academic career, she has successfully advocated the interests of faculty and students, through her collaborative, collegial, and transparent approach to shared governance.

Among her many achievements during her nine years as Dean at West Chester, Dr. Vermeulen created successful grant programs supporting faculty development, student engagement, diversity initiatives, graduate assistantships, international outreach, entrepreneurialism, and innovation. She also played an instrumental role in transforming a budget deficit of \$250,000 to a \$1.6 million surplus in two years, through effective collaboration and the use of a resource allocation model which supported institutional goals.

Dr. Lori Vermeulen was a part of a nation-wide search, and was selected from 85 candidates. Her extensive experience and skill-set make her an exceptional candidate for this position.
