

School of Education

We in the School of Education are proud to salute our faculty and share some of their thought-provoking practical research and scholarly work during the past year. This is the second year that our faculty members have been highlighted for their contributions to the profession and to the future of our students.

A review of this information suggests School of Education faculty are committed to preparing competent, caring, and qualified educators by sharing their research so all associated with learning and teaching might benefit. The range of research is remarkable, covering such diverse topics as creating a learning environment for all students to advising non-native English speaking students to using interactive multi-media in teacher education to living standards and social well-being to concepts, rigor and relevance in the 21st Century. It is clear that our faculty members are on the leading edge of transformative change in their respective disciplines. However, it is not just the research and professional presentations of our faculty that make them outstanding, it is bringing their research to life in the classroom and community that distinguish them among their colleagues.

The extent to which our faculty members collaborate with their peers and with colleagues from other educational institutions - both nationally and internationally - distinguishes our School of Education as being vibrant and exciting!

Simply put, our faculty members are caring practitioners concerned with developing the best practices in diverse and technological rich learning environments. Our faculty rank among the best and we are proud of their contributions to our profession.

~ Dean Joseph J. Marchetti

Ackerman, Amy

Presentations ~

((2-3 Aug 2011). Web Literacy and Critical Thinking. 2011 NJEA Technology Integration Institute, The Richard Stockton College of New Jersey.

(28 Jun 2011). Trail, M., Co-presenter. Students Get Lit: Acquiring Literacy with Web2.0 Screencasting. International Society for Technology in Education Annual Conference, Philadelphia.
